Public health officials are working closely with partners here in Nova Scotia and colleagues across the country to respond to the COVID-19 pandemic.

There is an urgent need to increase the number of health care providers and support staff in Nova Scotia to assist the doctors, nurses, and other health team members to continue to deliver care to residents of Nova Scotia during this pandemic in our nursing homes, home care agencies and hospitals.

On behalf of the province, the Nova Scotia Health Authority (NSHA) has set up the following open call postings to accept applications from people who are not currently employed with the NSHA, but who would be willing to work as a Casual Relief worker - to be deployed as needed at the NSHA, long term care or other publicly funded health care entities.
