Amendments to the Fax Transmission of Prescriptions Policy

The *Fax Transmission of Prescriptions* policy has been updated, including:

- The restriction against faxing prescriptions for medications monitored by the NSPMP has been suspended during the COVID-19 pandemic. This is in effect until September 30, 2021 unless revoked or renewed.
- The requirement for physician “certifications statements” has been removed. This amendment is permanent and will be in effect after the COVID-19 pandemic.
