**Re:** NS Drug Information System (NS DIS) Prescription Transfers for Monitored CDSA Drugs

---

The NSCP has been informed that as of October 9, 2020, the technical changes necessary to allow transferring of prescriptions for monitored CDSA drugs within the NS DIS have been completed.

Pharmacy practitioners should now complete all transfers for prescriptions for monitored CDSA drugs within the NS DIS in the same as manner as is done for prescriptions for non-monitored drugs.

Any questions on how to complete prescription transfers within the NS DIS should be directed to the pharmacy's software vendor or support service.
